FOR IMMEDIATE RELEASE

TANNEWITZ 36MH70

Tannewitz introduces the model 36MH70 horizontal automated traveling head honeycomb bandsaw.

The saw is capable of cutting all types of honeycomb material 60" wide up to 33" thick with a saw head travel of 140"

Features include fully programmable indexable PLC, saw head vertical travel of 34" with +/- .002 repeatability, head tilt adjustment of 0-30 degrees, hydraulic blade tension, 15hp variable speed drive motor with blade speeds of 4,000-8,000 SFPM.

The traveling head is also variable speed with cutting rates of 10-40 linear inches per minute holding a tolerance of +/- .003
